

School ERP Project Context (Continue From Here)

Project Information

Project Name: School ERP / School Management System

School: Prajnanabodhini English Medium School & Jr. College, Shirgaon / Chikhali

Technology Stack

- Laravel 13.x
- PHP 8.3+
- MySQL Database (Main ERP Database)
- MSSQL Connection (sqlsrv_olderp) for old SchoolERP database
- Blade Templates
- Bootstrap + Custom CSS

Current Login Flow

1. User logs in.
2. User selects:
3. Academic Year
4. Section
5. Values stored in session:

```
session('yearid')  
session('year_name')  
session('sectionid')  
session('section_name')
```

These values are mandatory for:

- Marks Entry
- Result Generation
- Student Profile
- Result Sheet
- Report Card

Database Connections

Default MySQL

Used for:

- Users
- Roles
- Permissions
- Student Marks
- Teacher Allocations
- Result Processing

MSSQL Connection

Connection Name:

sqlsrv_olderp

Used for:

StandardMst
DivisionMst
SubStudentMst
FeeMstStudent

Important Tables

Master Tables

academic_years
sections
standards
divisions
subjects
subject_types
standard_subjects

Teacher Allocation

teacher_class_allocations

```
id
academic_year_id
section_id
standard_id
division_id
user_id
```

teacher_subject_allocations

```
id
teacher_class_allocation_id
subject_id
```

Exam Tables

exam_masters

```
id
exam_name
theory_max_marks
theory_passing_marks
oral_max_marks
oral_passing_marks
practical_max_marks
practical_passing_marks
has_theory
has_oral
has_practical
display_order
is_active
```

exam_subjects

Exam Subject Allocation

Marks Tables

student_marks

```
id
academic_year_id
section_id
standard_id
division_id
student_id
exam_master_id
subject_id
teacher_subject_allocation_id

theory_max_marks
theory_passing_marks
theory_obtained_marks

oral_max_marks
oral_passing_marks
oral_obtained_marks

practical_max_marks
practical_passing_marks
practical_obtained_marks

is_locked
created_by
updated_by
```

teacher_marks_statuses

```
id
academic_year_id
exam_master_id
teacher_subject_allocation_id
standard_id
division_id
subject_id
teacher_id
status
```

Status values:

PENDING
COMPLETED

Subject Rules

Jr KG to 2nd

Academic Subjects only

No Skill Subject

3rd to 10th

Academic Subjects

Computer (Compulsory)

Robotics (Compulsory)

One Skill Subject

11th / 12th

Academic Subjects only

No:

- Computer
 - Robotics
 - Physical Education
-

Important Controllers

StudentController

Location:

```
app/Http/Controllers/StudentController.php
```

Handles:

- Student CRUD
- Student Promotion
- Student Loading

MarksEntryController

Location:

```
app/Http/Controllers/MarksEntryController.php
```

Important Methods:

index()

Loads:

- Exams
- Teaching Assignments
- Students

Marks Entry Screen

save()

Saves marks.

After save:

```
TeacherMarksStatus  
status = COMPLETED
```

viewMarks()

View Marks Page

Route:

marks-entry.view

edit()

Loads edit marks page.

Route:

marks-entry.edit

updateMarks()

Updates existing marks.

Current method:

```
public function updateMarks(Request $request)
{
    foreach ($request->mark_ids as $id)
    {
        $mark = StudentMark::find($id);

        if (!$mark)
        {
            continue;
        }

        $mark->update([
            'theory_obtained_marks' =>
                $request->theory_marks[$id] ?? null,

            'oral_obtained_marks' =>
                $request->oral_marks[$id] ?? null,

            'practical_obtained_marks' =>
                $request->practical_marks[$id] ?? null,

            'updated_by' =>
                Auth::id()
        ]);
    }
}
```

```
    });  
  }  
  
  return back()  
    ->with(  
      'success',  
      'Marks Updated Successfully.'  
    );  
}
```

Current Work In Progress

Edit Marks Feature

Goal:

Admin opens:

View/Edit Marks

Clicks:

Edit Marks

Page should look exactly like Marks Entry screen.

Admin can modify marks.

Click:

Update Marks

Marks should update.

Remain on:

View/Edit Marks

Do NOT redirect to Marks Entry.

Current Issue Being Investigated

Route file currently contains:

```
Route::post(
    '/marks-entry/update',
    [MarksEntryController::class, 'updateMarks']
)->name('marks-entry.update');
```

Edit page must submit to:

```
route('marks-entry.update')
```

NOT:

```
route('marks-entry.update-marks')
```

edit.blade.php Important Fix

Must use:

```
<input
    type="hidden"
    name="mark_ids[]"
    value="{{ $record->mark_id }}"
>
```

and

```
name="theory_marks[{{ $record->mark_id }}"
name="oral_marks[{{ $record->mark_id }}"
name="practical_marks[{{ $record->mark_id }}"
```

NOT Studentid.

Result Generation Module

Controller:

```
Administrator/ResultGenerationController.php
```

Creates:

```
student_results  
student_result_details
```

Result Sheet Module

Controller:

```
Administrator/ResultSheetController.php
```

Features:

- Result Register
- Result Sheet
- Subject Analysis
- Boys/Girls Analysis
- Grade Analysis

Report Card Module

Controller:

```
Administrator/ReportCardController.php
```

Features:

- Individual Student Report Card
- Academic + Skill Subject Handling

Navigation File

Location:

```
resources/views/layouts/navigation.blade.php
```

Contains:

- Dashboard
 - Masters
 - Students
 - Examination
 - Reports
 - Administration
 - Profile
 - Logout
-

Layout File

Location:

```
resources/views/layouts/app.blade.php
```

Contains:

- School Logo
 - School Header
 - Navigation Include
 - Academic Year Banner
 - Section Banner
-

Current Task To Continue In New Chat

We are currently debugging:

Edit Marks Page

Files involved:

```
app/Http/Controllers/MarksEntryController.php
```

```
resources/views/marks-entry/view.blade.php
```

```
resources/views/marks-entry/edit.blade.php
```

```
routes/web.php
```

Goal:

- Admin clicks Edit Marks
- Existing marks load
- Marks editable
- Update button saves changes
- Stay on View/Edit Marks page
- No redirect to Marks Entry
- All marks update correctly
